

PORTABLE AIR CONDITIONERS

An efficient solution for more comfortable environments

Grande Portable Air conditioners With R-410A (60Hz)

BY JOHNSON CONTROLS

A broad line of user-friendly, earth-friendly units

Air Conditioning Unit

- Modern design
- Automatic restart
- Convenient filter cleaning
- LED Display
- Electronic control

Remote Control

- Stylish design
- 2 operation modes
- 3 speeds fan control
- Wireless remote control

The YORK® line of Window Air Conditioners includes a variety of sizes to give you more flexibility in your product offering. Each model is designed to provide comfort and efficiency in an easy-to-operate unit and the compact design fits a variety of windows, in a home or office. Models meet the highest energy efficiency ratings, so less energy is consumed without sacrificing comfort and performance. Both the condensing unit and fan are engineered for quiet operation. And comfort control settings are easily changed on the unit or with the touch of a button on the remote control.

We create environments that help achieve a higher level of comfort.

No one knows building environments better than Johnson Controls. For more than 125 years, we've been in the business of building efficiency, delivering healthier environments, operational savings and sustainable solutions for our partners all over the world. In fact, we serve over one million customers and help the world reduce its energy consumption, saving customers over \$7.5 billion in energy costs.

FEATURES AND BENEFITS

Compact Design

Smaller dimensions for easy installation and transportation, and reduces cost.

Multi-Speed Fan

Multi-speed fan helps satisfy various airflow requirements.

Auto Swing

In cooling mode, auto swing sends air up, down and side-to-side to all corners of the room for improved comfort and energy savings. In heating mode, air is directed downward only.

Washable Filter

Washable filter allows for convenient service and maintenance.

R-410A

Environment-friendly refrigerant cools and heats more efficiently without destroying the ozone layer.

3 Minutes Protection

A 3-minute delay before the compressor will restart helps avoid compressor damage and extend compressor life.

Self Diagnosis

Clearly displayed failure codes allow for quicker troubleshooting and easier maintenance.

Auto Restart

Unit is automatically returned to previous operating conditions after a power outage, for simplified operation.

24 Hour Timer

Allows programmed start times up to 24 hours in advance for flexible and more convenient operation.

Inner Groove Copper Tubes

Inner groove copper tubing allows more refrigerant to pass through, improving heat exchange by 30 to 50% when compared to traditional copper tubing, and lowering power consumption while keeping output capacity at the same level.

Specifications

Model Name	Set	YUBFZC012BAG-AFX
Power Supply	V-Ph-Hz	115/1/60
Normal Cooling Capacity	Btu/h	12000
Normal Cooling Input Power	W	1355
EER	W/W	2.74
Compressor Type	-	Rotary
Refrigerant	-	R-410A
Air Flow Volume	m3/h	450
Dehumidify Capacity	l/h	1.2
Unit Dimension (WxHxD)	mm	454 x 365 x 700
Net Weight	kg	29.9

About Johnson Controls

Johnson Controls is a leading provider of equipment, controls and services for heating, ventilating, air-conditioning, refrigeration and security systems for buildings. Operating from 500 branch offices in 150 countries, we create building environments that help people achieve more by delivering products, services and solutions that increase energy efficiency and lower operating costs. We are involved in more than 500 renewable energy projects including solar, wind and geothermal technologies. Our solutions have reduced carbon dioxide emissions by 13.6 million metric tons and generated savings of \$7.5 billion since 2000. Many of the world's largest companies rely on us to manage 1.5 billion square feet of their commercial real estate.
